

THIS WINTER'S SKATING GIRL WILL WEAR PRETTY NEW OUTDOOR THINGS

A new winter outfit for the girl who skates.

All sorts of attractive things have been designed for the girl who loves the outdoors in winter. In the picture is shown a new skating set of tan color velour, edged with black velvet and a black tassel. The cap is finished with a band of black velvet and a little black velvet ball perches on the top.

Lardner Frames New Rules For Future World's Series

By RING W. LARDNER.
CLEVELAND, O., Oct. 16.—I saw Hughie Fullerton's stuff this morning in the New York Times, or whatever New York newspaper is sucker enough to buy it, and the stuff said that if the magnates were wise, the series just ended would be the last of the world's series.

But if it were the last world's series, what would poor guys like me and Ty Cobb and Grover Alexander and Sherwood Magee and other famous writers, to say nothing of people who are said to play ball on clubs like Brooklyn, do for a living?

Special Rules by Lardner.

So I doped out a way that would insure the next world's series being interesting. In the first place all the games should be played on grounds that the Boston Red Sox have never

seen before. And the following set of rules should prevail:

1.—The National League club should be allowed to have eleven men on the field instead of nine.

2.—The National League club should be provided with John McGraw for manager, or else an American League manager, or somebody from outside who knows something.

3.—The Red Sox should be limited to one infielder, not including Scott or Gardner or Hobbittell, and one outfielder, exclusive of Lewis or Hooper.

4.—An American League manager who knows as much as Carrigan must be kept out of the ball park.

They Should Switch Arms.

5.—Ernie Shore should be obliged to pitch left handed, and Babe Ruth and Dutch Leonard should be forced to pitch with their right hands.

6.—The National League club's pitchers should be recruited from the American League or the Giants.

7.—The National League club should be allowed to have six strikes and should be passed to first base on one ball.

8.—If a National League batsman hits a ball to an infielder the infielder should be required to throw the ball to three or four other bases before throwing it to first.

9.—If a National League batsman hits a ball past an outfielder and makes a home run, whether he touches home plate or not, he should be given credit for three home runs.

10.—Larry Gardner and Duffy Lewis should be barred from all competition.

11.—Nobody named Dick Hobbittell should have a base on balls, unless he gets nine balls before one strike is called.

Spot 'Em Two Games.

12.—The American League should not the National League two games.

13.—The American League should be forced to walk from town to town in order to wear the athletes down.

14.—All American League players who make less than a home run should be declared out at first base.

15.—Duffy Lewis and Harry Hooper and Everett Scott and Lawrence Gardner should be compelled to play blindfolded and with their hands tied.

16.—National League players should be allowed to take shots in the arm between every two plays.

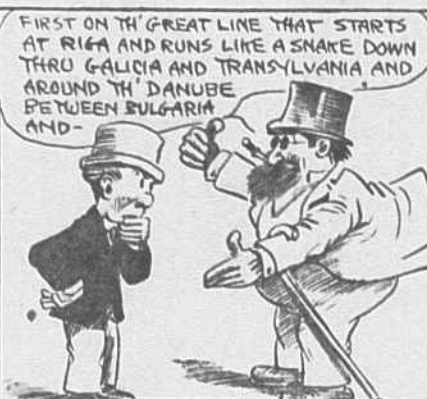

17.—Nobody should be allowed to pay to get in.

In this way, I think we could continue the grand old world's series and nobody would suffer except the real newspaper men and the public and everybody else.

G. O. P. RALLY AT M'WHORTER AN EYE OPENER

Crowd Three Times as Large as One That Heard the Democratic Speakers.

(SPECIAL TO THE TELEGRAM)
McWHORTER, Oct. 16.—The Republican rally held here Saturday night, which was addressed by W. E. White, of Parkersburg; Wallace B. Gribble, of West Union, candidate for the state senate; and a number of county candidates, afforded a striking contrast to the Democratic meeting held here about two weeks ago on the occasion of the visit of the "Flying squad," headed by Louis A. Johnson, candidate for the House of Delegates.

Persons who attended both meetings declare that the crowd which heard the Republican speakers Saturday night was at least three times as large as the one that attended the Democratic meeting.

Saturday night's meeting was held in the lodge hall and this spacious auditorium was filled to overflowing. The rally closed Mr. White's week's stumping tour of the county. Music was furnished by the McWhorter band.

D. L. Nutter acted as chairman of the meeting and introduced the speakers. Mr. White was the principal speaker of the evening, and his remarks were frequently interrupted with applause. Mr. Gribble made an excellent speech, and proved that he is "some" campaigner. Among the county candidates who delivered brief talks were Lloyd D. Griffin, nominee for sheriff; Will E. Morris, candidate for prosecuting attorney; Ira L. Swiger, nominee for assessor; Dorsey W. Cork, nominee for member of the county court; S. R. Harrison, Jr., candidate for the House of Delegates; and Charles A. Sutton, candidate for judge of the criminal court.

AN ABE LILLY PAPER

(Continued from page 1.)

London, or Paris, or Bucharest, or Constantinople, or Buenos Aires, or Peking, between Judge Robinson and General Lilly as to any settlement with respect to their rival candidacies of a problem which concerned them more directly than anyone else.

What is worrying our contemporary is not that all the terms of this agreement may not have been carried out, but that the settlement was effected. It is the agreement of the two rival candidates to compose their differences and to work together for the success of the party in West Virginia which is worrying the local Democratic organ.

Now, it is to be presumed that General Lilly is the one to make complaint if any. If he has been materially injured, he is the one to raise the hue and cry. He hath a tongue; yes, a very eloquent one. He has access to the newspapers, especially to the Democratic organ in a case of this kind, with effusive welcome and, "Come again, General."

But General Abe Lilly does not come, despite the very evident cordial invitation. In the first place, General Abe Lilly knows a gold brick when he sees it, especially a gold brick manufactured in a Democratic newspaper office.

So, we fear, the Democratic newspapers of West Virginia, which no doubt are gleefully delighted over having found as they suppose a tasty morsel, will "play up" this wonderful story. So be it; and let no one say they nay! But no Republican will be fooled. The issue in West Virginia is this and this only: Shall this state endorse Republican principles and have a Republican administration, or shall it endorse an administration which has offered no higher conception than the late unimpeached MacCorkle administration, which was neither Democratic nor Republican but sui generis, and found sadly wanting?

In 1896 the people of West Virginia rendered their verdict and in every gubernatorial election since then they have repeated that verdict. They will repeat it this year unless all signs fail. Hence, the walls which come from the Democratic newspaper offices; hence the grasping at straws.

The Triumphal March

A NEW CREATION OF SCIENCE AND NATURE

WHEN we announced Bevo recently, our hopes were high. We knew that we had the most unusual soft drink that had ever been offered: A beverage combining the nutritive extracts of wholesome cereals, the zest of Saazer Hops, a flavor all its own, and absolute purity. We knew this because, true to our own ideals, we had experimented for years before we were satisfied to say, "We offer you Bevo—it is a different soft drink—it is good and it is good for you."

High as were our hopes for its reception, we have realized them far and beyond our expectations.

Bevo today is an established popular success. Everywhere the same question is asked:—"Have you tried Bevo?"

Now, one final word. We promise you that, in accord with the known principles of Anheuser-Busch and all its products, Bevo not only will forever maintain its present high standard of quality, but as time goes on our great endeavor shall be to make this soft drink even more perfect in every detail of its goodness.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars and other places where refreshing beverages are sold.

Guard against substitutes. Have the bottle opened in front of you, first seeing that the seal is unbroken and that the crown top bears the Fox.
